Let's group/pair

In groups or pairs, you'll get slips with questions. Find the answers on the papers around the classroom.

Let's answer the questions

- Find all the irregular verbs in the song
- Find all the money words in the song
- Find the example of the double negative in the song
- Find all the state verbs in the song
- List 5-6 colloquial words. Colloquial words are like:
gonna
- What does the expression *hit the dance floor* mean?

Please connect the song with the goal

Struggling students get help

How do people seem to you?

Are they happy?

How does the song make you feel?

Do people look like they are all the same ?

Do people judge other people in general? Why?

Reflection time

Do you like it?

Is it applicable in your teaching environment?

What could be a problem or an obstacle?

Would you change anything?

Is music present in your classroom? Is it difficult to use music in the classroom?
