# About the project

OMSA.ME & ELTAM W/ SUPP. OF MESCS

**In 2020**

Pilot project  
Brain circulation mentorship program:  
10 gifted/talented students with intellectual abilities

**In 2021**

New generation  
Brain circulation mentorship program:  
30 gifted/talented students with intellectual abilities and ability to inspire change

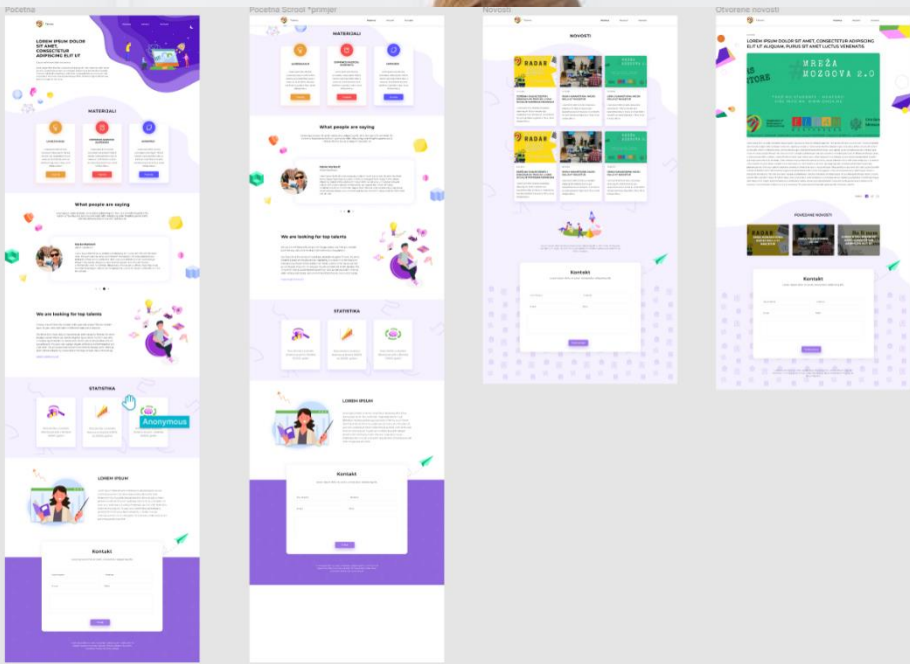

**In 2021**

We started talking with teachers to better understand their school approach and promote positive models of practice

**In 2022**

We want to develop new tools and programs that can benefit both the students and teachers who work with gifted/talented students

Follow @omsa.me and keep an eye on the Open call for teachers to share good models of practice

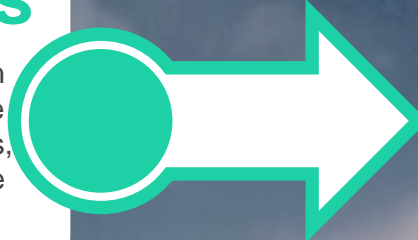

# Gifted and talented students

Students with gifts and talents perform - or have the capability to perform - at higher levels compared to others of the same age, experience, and environment in one or more domains.

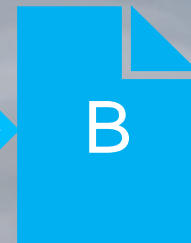

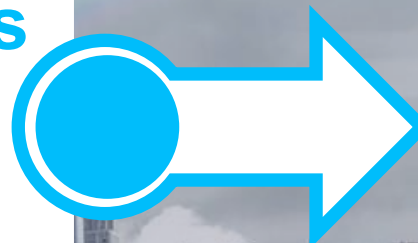

## Intellectual capabilities

include students with highly developed abilities to: reason and derive logical conclusions, synthesize information, solve problems, develop divergent opinions, fluently present ideas, use their imagination and develop metacognition. They are intellectually curious and have an excellent memory.

## “Personal” capabilities

students with a developed internal motivation, persistence and perseverance, sense of humor, emotional sensibility, ability to question rules and authority, with a developed empathy and self-awareness.

# Thank You
