Personal contribution is important

„Global education is education that opens people’s eyes and minds to the realities of the globalized world and awakens them to bring about a world of greater justice, equity and Human Rights for all.”

BY: Iva Gajić and Teodora Sućur

What are natural resources?

-Natural resources are resources that exist without any actions of humankind. On Earth, it includes sunlight, atmosphere, water, land, all minerals along with all vegetation, and animal life.

Things we can do to save natural resources

With school and combined forces of children we can clean forests and rivers of waste and the waste should be handed over for recycling.

Eight simple choices for a healthier planet

- Reduce, reuse and recycle. Cut down on what you throw away.
- Volunteer. Volunteer for cleanups in your community.
- Educate.
- Conserve water.
- Shop wisely.
- Use long-lasting light bulbs.
- Plant a tree.

How can we change educational system in school?
We could introduce a system of enriching vocabulary with music and educational games.

PEACE AND CONFLICTS

We believe that additional classes should be held in our school on this topic, because students need to know and talk about what they are going through, what they need to do and how to solve problems.

INFORMATION AND COMMUNICATION TECHNOLOGIES
ONLINE BULLYING
Marija Sućur, Anja Calasan and Nada Papović

BULLYING ON INTERNET

Online / cyber bullying represents teasing someone because of their skin color, religion, nationality, style, etc...

HOW DOES IT AFFECT US

Bullying can be dangerous because it can affect person:

mentally
emotionally
physically

HOW TO STOP ONLINE / CYBER BULLYING

- Speak up and defend yourself
- Don't respond to them if you don't want to
- Make evidence (screenshots, text in document, etc...)
- Report the bully
- Block him/her

PEOPLE POVERTY

Poverty becomes a very usual thing in our world , which is very sad. We are fighting the biggest disease that has no cure . But that doesn't mean we need to give up . We can help. All of us. Together.
HOW?

*Social media is integral part of our life . But people start to use it in a **wrong** way.

IT'S TIME TO USE IT AS A
VOICE OF A SOCIAL GOOD!

*We can **donate!** Not just money, but books for poor children, clothes, food or other useful things.

*Giving a **job** to a poor people will help them earn **money** and **feed** their family, but for that we need to **EDUCATE** them! Which is just another problem we need to solve.

MEDIA LITERACY

BIAS, n:
a tendency to believe that some people, ideas, etc., are better than others that usually results in treating some people unfairly

HOW TO SPOT FAKE NEWS

- CONSIDER THE SOURCE**
Click away from the story to investigate the site, its mission and its contact info.
- READ BEYOND**
Headlines can be outrageous in effort to get clicks. What's the whole story?
- CHECK THE AUTHOR**
Do a quick search on the author. Are they credible? Are they real?
- SUPPORTING SOURCES?**
Click on those links. Determine if the info given actually supports the story.
- CHECK THE DATE**
Reposting old news stories doesn't mean they're relevant to current events.
- IS IT A JOKE?**
If it is too outlandish, it might be satire. Research the site and author to be sure.
- CHECK YOUR BIASES**
Consider if your own beliefs could affect your judgement.
- ASK THE EXPERTS**
Ask a librarian, or consult a fact-checking site.
